We want you to get the best experience out of using CBD Oil. Please keep a log ranking your symptoms from 1-10. 1 being good to 10 being bad/horrible. Put each day in once and then the level of the symptom from 1-10, put in your rank at night with the total amount of CBD in Mg that was taken that day. That way over time we should see the numbers of the symptom decreasing and the CBD Oil is working great! If not, we can have a doctor look over to see what changes we could make to ensure that this is helping you.
